CERTIFIED RETURN RECEIPT 7099 3400 0016 8894 6246

Matt Carter
Timberline Rock Pit, LLC
334 North Marshall Way, Suite A
Layton, Utah 84041

Subject: Reassessment for Cessation Order, MC-2005-01-18(1 of 2), Timberline Rock Pit, LLC, Timberline Rock Pit Mine, S/049/053, Utah County, Utah

Dear Mr. Carter:

The proposed civil penalty assessment for the above referenced cessation order was sent to you on December 13, 2005. At that time the abatement had not been completed and some of the facts surrounding the violation were not available. In accordance with rule R647-7-105, the penalty is to be reassessed when it is necessary to consider facts, which were not reasonably available on the date of the issuance of the proposed assessment. Now that the Cessation Order has been terminated the assessment can be completed. Following is the reassessment of the penalty for the cessation order:

- MC-05-01-18 Violation 1 of 2 \$396

The enclosed worksheet specifically outlines how the violation was assessed. Even though the violation has now been terminated, you are still required to pay the penalty. You should note that good faith points have now been awarded. If you are satisfied with this assessment, you should make payment to the Division of Oil, Gas & Mining.

Otherwise, under R647-7-106, there are two informal appeal options available to you:

1. If you wish to informally appeal the fact of the Cessation Order, you should file a written request for an Informal Conference within thirty (30) days of receipt of this letter. This conference will be conducted by the Division Director or Associate Director.

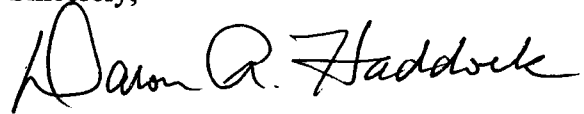

Matt Carter
2 of 2
S/049/053
January 6, 2006

This Informal Conference is distinct from the Assessment Conference regarding the proposed penalty.

2. If you wish to review the proposed penalty assessment, you should file a written request for an Assessment Conference within thirty (30) days of receipt of this letter. If you are also requesting a review of the fact of violation, as noted in paragraph one, the assessment conference will be scheduled immediately following that review.

If a timely request for review is not made, the fact of the cessation order will stand, the proposed penalty(ies) will become final, and the penalty(ies) will be due and payable within thirty (30) days of the reassessment. Please remit payment to the Division, mail c/o Vickie Southwick.

Sincerely,

Daron R. Haddock
Assessment Officer

WORKSHEET FOR ASSESSMENT OF PENALTIES
DIVISION OF OIL, GAS & MINING
Minerals Regulatory Program

COMPANY / MINE Timberline Rock Pit LLC/ Timberline Mine PERMIT S/049/053

NOV / CO # MC-2005-01-18(2)

VIOLATION 1 of 2

REASSESSMENT DATE February 17, 2006

ASSESSMENT OFFICER Daron R. Haddock

I. HISTORY (Max. 25 pts.) (R647-7-103.2.11)

- A. Are there previous violations, which are not pending or vacated, which fall within three (3) years of today's date?

PREVIOUS VIOLATIONS	EFFECTIVE DATE	POINTS (1pt for NOV 5pts for CO)
<u>none</u>	<u></u>	<u></u>
<u></u>	<u></u>	<u></u>

TOTAL HISTORY POINTS 0

II. SERIOUSNESS (Max 45pts) (R647-7-103.2.12)

NOTE: For assignment of points in Parts II and III, the following apply:

1. Based on facts supplied by the inspector, the Assessment Officer will determine within each category where the violation falls.
2. Beginning at the mid-point of the category, the Assessment Officer will adjust the points up or down, utilizing the inspector's and operator's statements as guiding documents.

Is this an EVENT (A) or Administrative (B) violation? Event
(assign points according to A or B)

A. EVENT VIOLATION (Max 45 pts.)

1. What is the event which the violated standard was designed to prevent?

2. What is the probability of the occurrence of the event which a violated standard was designed to prevent?

<u>PROBABILITY</u>	<u>RANGE</u>
None	0
Unlikely	1-9
Likely	10-19
Occurred	20

ASSIGN PROBABILITY OF OCCURRENCE POINTS 20

PROVIDE AN EXPLANATION OF POINTS:

******* *An Operator is required to obtain a reclamation bond prior to conducting mining activities. The Operator had applied for a permit and had submitted some bond information but had not received final approval to mine and yet had commenced mining operations anyway. Several acres have been disturbed at this location without first posting the required surety for reclamation purposes. Mining has occurred without final approval. Disturbance has actually occurred.*

3. What is the extent of actual or potential damage? RANGE 0-25

In assigning points, consider the duration and extent of said damage or impact, in terms of area and impact on the public or environment.

ASSIGN DAMAGE POINTS 5

PROVIDE AN EXPLANATION OF POINTS:

******* *The inspector stated that the operator has disturbed over 5 acres of land. The damage is primarily the loss of vegetation and compaction of soil on the area disturbed. Without a bond to ensure reclamation, there is the potential that the site could go unreclaimed. Further discussion with the inspector, revealed that the damage is probably temporary. The site could still be reclaimed. Damage is assessed in the lower part of the range.*

B. ADMINISTRATIVE VIOLATIONS (Max 25pts)

1. Is this a POTENTIAL or ACTUAL hindrance to enforcement? _____
RANGE 0-25

Assign points based on the extent to which enforcement is actually or potentially hindered by the violation.

ASSIGN HINDRANCE POINTS _____

PROVIDE AN EXPLANATION OF POINTS:

TOTAL SERIOUSNESS POINTS (A or B) 25

III. DEGREE OF FAULT (Max 30 pts.) (R647-7-103.2.13)

- A. Was this an inadvertent violation which was unavoidable by the exercise of reasonable care? IF SO--NO NEGLIGENCE; or, was this a failure of a permittee to prevent the occurrence of a violation due to indifference lack of diligence, or lack of reasonable care, the failure to abate any violation due to the same or was economic gain realized by the permittee? IF SO--GREATER DEGREE OF FAULT THAN NEGLIGENCE.

No Negligence	0
Negligence	1-15
Greater Degree of Fault	16-30

STATE DEGREE OF NEGLIGENCE Negligence

ASSIGN NEGLIGENCE POINTS 8

PROVIDE AN EXPLANATION OF POINTS:

*** *The inspector indicated that the permittee had been notified in writing 3 times that until the surety and reclamation contract were approved, there was to be no mining activity at the site. The Permittee had posted bond and received tentative approval for the Notice of Intent but had not received final approval. The permittee had sold some of the rock material to another operator who actually did the excavation. When the permittee went to the site after the violation was written he was surprised to see the amount of disturbance that had been created. This indicates lack of reasonable care. A prudent operator would understand the need to obtain approval prior to allowing mining operations to proceed. Once the requirements were explained to the Operator, he was very cooperative and expressed the desire to achieve compliance. The Operator was considered negligent for not keeping better track of the operations, thus the assignment of points in the middle of the negligence range.*

IV. GOOD FAITH (Max 20 pts.) (R467-7-103.2.14)

(Either A or B) (Does not apply to violations requiring no abatement measures)

- A. Did the operator have onsite, the resources necessary to achieve compliance of the violated standard within the permit area?
IF SO--EASY ABATEMENT

Easy Abatement Situation

X	Immediate Compliance	-11 to -20*
	(Immediately following the issuance of the NOV)	
X	Rapid Compliance	-1 to -10
	(Permittee used diligence to abate the violation)	

II.	TOTAL SERIOUSNESS POINTS	<u>25</u>
III.	TOTAL NEGLIGENCE POINTS	<u>8</u>
IV.	TOTAL GOOD FAITH POINTS	<u>-15</u>
	TOTAL ASSESSED POINTS	<u>18</u>
	TOTAL ASSESSED FINE	<u>\$ 396</u>
